## Gone Crabbing!

### Norfolk-inspired Clothing and Gifts

It all started as a business to supply souvenir T-shirts to Norfolk's growing tourist market, and has now become a popular and recognisable clothing and giftware brand throughout the county. With her entrepreneurial spirit and the support she has

received locally, Gone Crabbing's creator, Susie Mason, has expanded her range to include hoodies, mugs, napkins, tea towels, aprons and oven gloves – and I hear there's even a soap on a rope in the pipeline too. All the products feature Susie's

colourful and imaginative designs and the 2010 clothing collection exudes the energy, colour and vibrancy of Norfolk's coastline and countryside. Look out for the new Gone Crabbing National Kitchen textiles too, celebrating our favourite British dishes and puddings.
